LET'S INSPIRE BIHAR INTRODUCTION

Let's Inspire Bihar is a voluntary social, cultural and educational initiative that seeks to promote and work upon the themes of **Education, Egalitarianism** and **Entrepreneurship** in order to contribute towards the establishment of a better future for Bihar.

It aims to connect such committed individuals, who have on a voluntary basis opted to contribute towards future building on any of the core themes. The inspiration emanating from Bihar's magnificent heritage, which since the most ancient times had made its mark felt in the then contemporary world, is the main driving force behind the initiative. As one proudly recalls the past of Bihar, as a land of knowledge, as a land of military might with egalitarian political traditions and as a land of entrepreneurship, the initiative seeks to encourage the present generation to ponder over the reasons which had once brought such glory and also to brainstorm upon the reasons responsible for the decline with time in the process of natural evolution of the land, which once led the entire nation, that had its boundaries more widespread than the present day.

The initiative thus promotes the need to learn from the broadminded and foresighted vision of such illustrious ancestors, who only due to such vision and energy with synergy, could achieve so much at a time when available resources and infrastructure like roads, means of transport and communication were dismal and technology was still not as developed as the present day. It is with such understanding that the zeal to contribute towards future building would emerge from within, since it is important that the cumulative energy should be channelised in proper direction for desired results. The initiative is based upon sharing the understanding and the inspiration and in motivating each other further in the wake of difficult times to prepare with faith, grit and determination for the future.

OUR VALUES

- We believe in bringing socially conscious individuals together to reform and develop chapters & communities.
- Determination, hard work and sincerity always treads our way towards continuous progress.
- Co-ordination, cohesiveness and focus not only internally but also with our partners can ensure campaign success.
- Belief in motivation to be paramount in bringing about any change in the nation.

This platform will give youths of Bihar an opportunity to share their thoughts, hopes, expectation of young people in regard to the development agenda, elections, political parties, government and their vision for a **“BRIGHTER & VIBRANT BIHAR”** of the future.

In so doing it aims:

- To ensure creating a platform for youth where they can truly share their ideas, views, expectation and beliefs in order of their needs and priorities for the upliftment of Bihar and their own well-being
- To ensure that the authentic voices of young people are being heard by political parties, government bodies civil-societies and the wider public
- To demonstrate that young people can rise above party line politics and grasp the wider development issues at stake and make a useful contribution to the debate
- To counter the negativity around youth engagement in electoral process
- To give a group of young researchers the chance to deepen their experience of youths led research

VISION

To Inspire the Present Youth of Bihar to establish themselves firmly through education in the spirit of knowledge, promoting the culture of hard work and perseverance against diverting towards shortcuts for success and developing the ethos of egalitarianism by deriving Inspiration from the Spirit of our own Ancestors and Collective Heritage and thereby empowering them for positively contributing towards the Overall Development of Bihar and New India.

MISSION

- To form chapters of Inspired Youth in different districts of Bihar, who would propel the thinking of entire youth and overall society by acting as agents of change.
- The activities of different chapters shall be based upon promotion of the 3Es of Education, Egalitarianism and Entrepreneurship.
- The 3Ds for achievement of the goals to be promoted would sequentially be Desire, Dedication and Determination
- In the Field of Education, the Endeavour would be to organize workshops for creating consciousness about our own Heritage and fostering the Spirit of Knowledge and Hard Work for attainment of desired objectives. Successful Persons and Motivational Speakers from the same districts shall be requested to participate in motivational seminars and workshops from time to time. The effort shall be to reach out to the teachers' community and through them to the students.

- For the promotion of Egalitarianism, the chapters shall assist and contribute towards social activities touching all sections of society. The effort shall be to connect the needy with those who can and wish to voluntarily contribute, thereby fostering a spirit of mutual respect and equality.
- For the promotion of Entrepreneurship, the chapters shall assist in the process of knowledge sharing by those successful in their enterprises through the organisation of seminars and workshops from time to time. The role shall essentially be of connecting the experienced mentors with the ones looking for opening of successful start-ups.
- The district wise chapters shall try to connect those within the districts with those residing outside the district in other states of India or abroad.
- Chapters of Non-Resident Biharis shall also be promoted in important cities of India, where interactive sessions shall be held from time to time in order to inspire the non-resident population to contribute towards the development process of their districts and in providing assistance of various forms to those in need.
- Chapters of Non-Resident Indians from Bihar would be formed for assisting and guiding the chapters within Bihar for the **promotion of the 3Es.**

**Education
Egalitarianism
Entrepreneurship**

STAKEHOLDERS

To promote Education in the spirit of knowledge, the initiative seeks to connect students and the teaching community at all levels. Of the “3Es” that the youth need to focus upon in order to inspire everyone towards positive change, the first of them is to **focus on proper “Education”, in the Spirit of “Knowledge”**. We will have to energize our youth who are looking for shortcuts, not to look for shortcuts, but to work very hard, work hard like our ancestors **Ashtavakra, Yagyavalkya, Chanakya, Aryabhatta** and many others, who in their days, **inspired the whole generation** of the time. Some of the initiative planned for the promotion of education would include:-

Mentor a School : To make a difference at the school level, the initiative intends to invite on a voluntary basis online applications from interested qualified and established persons, based within or outside Bihar, who would be willing to be organised into a group of mentors for the school of their choice, based in Bihar, from the full list of the school community on display on the LIB website. A teacher from the school shall be requested to act as a nodal point and coordinate the connection between the school community and the mentors team. The mentors team can look into the actual issues and deficiencies which would need to be addressed in order to improve the overall scheme of education of the students. The mentors can assist the schools on either a financial basis in creation of required infrastructure or facilities or in providing scholarships to meritorious students, or in organising motivational and teaching camps or special sessions, as per peculiar and individual requirements of the concerned schools, for skill augmentation of the teachers and the students, or also assist the school administration in making policy decisions to make the level of education better.

Organisation of Olympiads and Merit Tests: The Bharat Heritage Olympiad was held in over 40 Schools of Patna in November–December, 2021 on a pilot basis in which over 30,000 students participated and got thus exposed to the magnificent heritage of Bihar. In 2022 and the following years, it is proposed to conduct more such tests not only in the field of heritage, but also in the sciences and mathematics, for skill augmentation of the students and also for inculcating a spirit of learning and knowledge.

Special Weekend Classes: Special Online Classes by experts are planned to be organised for skill augmentation of students. A special pilot initiative has been conceived for primary school students by Shri Shanti Bhushan Jha, associated with the Weekend School Foundation in the USA, in which teachers would be conducting classes for students through virtual media. The same model can be extensively replicated across schools in different parts of Bihar.

Vidyadan Yojana: The endeavour is to create a database of teachers, academicians and any capable specialists who are willing to devote some time towards taking classes for students.

Special Seminars for Students appearing for competitive examinations: The Endeavour would be to organise workshops for competitive examinations and for creating consciousness about our own heritage and fostering the spirit of knowledge and hard work for attainment of desired objectives. Successful persons and motivational speakers from the same districts shall be requested to participate in motivational seminars and workshops from time to time. The effort shall be to reach out to the teachers' community and through them to the students.

Free coaching in association with leading voluntary coaching institutes for meritorious students: Organisations like Techno Point in Bhagalpur and Crack JEE/NEET in Patna have already associated with the initiative.

The poster is for 'CRACK JEE/NEET', a Gurukul for IIT-JEE & MEDICAL Preparation. It features a portrait of Vikas Vaibhav, Special Secretary, Home Department, Govt. of Bihar. The poster announces a 'Target 20-20' initiative in collaboration with 'LET'S INSPIRE BIHAR'. It details the selection process for JEE and NEET, including written tests and personal interviews. A yellow circular badge indicates 'Tier - 1 Date of Exam: 27 Feb. 2022'. The poster also provides contact information for the Reg. Office and Study Campus in Patna.

EGALITARIANISM

The next “E”, which is very important for Bihar is a sense of “Egalitarianism”. In Bihar, the youth are seen as divided and are mentally diverted to inculcate from deemed role models, who are criminals, mostly since they come from a particular caste or community. Everything is divided with every action or inaction, being attributed to someone due to his being, from some particular caste. Such division is not going to solve any problems, however so much we may wish or keep trying. We will need to get rid of it if we are to progress ahead and that would need inspiration and of course – “Leadership, by example!”. If we want to derive lessons from the past for an illustrious future, such things will definitely have to change. In all our interactions, in our behaviour, in our thinking, will have to make a fundamental change of egalitarianism. For the promotion of Egalitarianism, the chapters shall assist and contribute towards social activities touching all sections of society. The effort shall be to connect the needy with those who can and wish to voluntarily contribute, thereby fostering a spirit of mutual respect and equality.

ENTREPRENEURSHIP

The last, but, the most important “E”, is working towards developing a sense of “Entrepreneurship”. It is something that was our forte in the ancient times, when we had cities like Champa and Patliputra, which were centres of trade for the ancient world. In those years when technology and communication were still undeveloped, we could physically control such vast tracts in the subcontinent and were able to make influence in places and nations far wide, even in such distant places like Korea, Thailand and others in South East Asia. That spirit of entrepreneurship seems to have been somewhere lost over the years and it is thus that we hear of students graduating with double degrees from IIT and becoming Railway gang-men, only supposedly for the security offered by a government job, no matter whatsoever the skill set may be required for such. The youth need to develop the spirit of entrepreneurship and do something which is innovative. The youth will have to think of solutions and solve the current impasse and lead themselves towards building a better future.

For the promotion of Entrepreneurship, the chapters shall assist in the process of knowledge sharing by those successful in their enterprises through the organisation of seminars and workshops from time to time. The role shall essentially be of connecting the experienced mentors with the ones looking for opening of successful start-ups.

ABOUT

SHRI VIKAS VAIBHAV

Vikas Vaibhav, an officer of the 2003 batch of the Indian Police Service is currently serving as Special Secretary in Home Department, Government of Bihar. An alumnus of IIT, Kanpur (1997-2001).

Vaibhav is regarded as one of the most popular police officers in Bihar and is highly applauded by the public at large for his professional policing and utmost dedication to service. He is renowned for his unshakeable integrity and firm honesty in performance of public duties with thorough professionalism and proper adherence to the law, without any fear or favour. Constantly working for maintenance of the ethos of truth and justice with transparency in the highest public interest has on many occasions required extraordinary grit and fervour, but undeterred by the pulls or pressures howsoever, he has always succeeded in retaining a courageous stand against any attempts of malicious interference by sections of the influential class. Quite endeared and widely respected by the community at large in Bihar for the same, he is often seen as a beacon of change, even as he has had to face the brunt for standing by the truth on several occasions. Nevertheless, he has maintained his steady composure and has been contributing to the interest of the society at large by selfless discharge of public duties. He was awarded by IIT Kanpur with the prestigious Satyendra K Dubey Memorial Award in 2019 for his unshakeable professional integrity.

Hailing from Bihat in Begusarai district of Bihar, Vaibhav was born on 21st November, 1979 in Darbhanga. His father, Mr. Jagadish Singh, a Chemical Engineer from BIT, Sindri, served with the Indian Oil Corporation from 1980 to 2013, and is currently residing in Noida. His mother, Mrs. Ranjana Singh, a homemaker with a Bachelors degree in Teaching from Guwahati University had an important role in shaping Vaibhav's early education. He received his schooling from various schools across India including Kendriya Vidyalaya, Guwahati (1st, 1985 to 1986), St. Paul's School, Begusarai (2nd to 8th, 1986 to 1993), Kendriya Vidyalaya, Bairagarh, Bhopal (9th, 1993 to 1994), Kendriya Vidyalaya, Noida (10th, 1994 to 1995) and Sardar Patel Vidyalaya, New Delhi (11th to 12th, 1995 to 1997). His younger sister Jayatri Singh is working as a banker in Noida and his younger brother Viraj Singh joined the Indian Railway Account Service in 2015.

He got married to Rupangi Vaibhav, a homemaker with a Bachelors degree in History from Patna Women's College, hailing from Keota in Samastipur district of Bihar on 17th February, 2005. His family includes daughter Pratyaksha Vaibhav (19th July, 2007) and son Yagyavalkya Vaibhav (16th July, 2012), both studying in Patna.

After securing a Bachelor's degree in Mechanical Engineering from IIT, Kanpur (1997 to 2001), Vaibhav joined the Indian Police Service in 2003, with the commitment to serve society. As a police officer, he has served in the capacities of Sub-Divisional Police Officer, Sadar, Aurangabad (18th September, 2005 to 5th December, 2005), Sub-Divisional Police Officer, Danapur, Patna (5th December, 2005 to 1st March, 2006), City SP, Patna (1st March, 2006 to 23rd December, 2006), SP, Bagaha, West Champaran (2nd December, 2006 to 2nd August, 2008), SP, Rohtas (4th August, 2008 to 13th February, 2011), SSP, Darbhanga (15th February, 2011 to 28th November, 2011), SP, National Investigation Agency, New Delhi (5th December, 2011 to 31st May, 2015), SSP, Patna (23rd June, 2015 to 28th August, 2015 and 12th September, 2015 to 3rd December, 2015), SP, Purnea (29th August, 2015 to 12th September, 2015), AIG, Training, Police Hqrs, Bihar (4th December, 2015 to 30th April, 2017), DIG, Bhagalpur (2nd May, 2017 to 3rd January, 2020), DIG, Munger (2nd August, 2017 to 8th March, 2018), DIG, ATS, Bihar (6th January, 2020 to 1st January, 2021) and currently is serving as Special Secretary in Home Department, Government of Bihar (1st January, 2015 to date).

Vaibhav is known as a hard task master in all the regions he has been posted to with crowds often having erupted spontaneously upon his transfer. As a young SP, he is credited with control of crime in Bagaha Police district of Bihar, which had earned the infamous reputation over decades as "Mini-Chambal", and also for control of Maoist activities in Rohtas district, where by conducting police operations along with effective community oriented policing, he virtually restored freedom for the historic Rohtas Fort, then reeling under the grip of the Maoists marked by the significant hoisting of the Indian Tricolour, for the first time post independence, on 26th January, 2009. He has also served with the National Investigation Agency (NIA), where he investigated important cases related to the activities of the Indian Mujahideen including the infamous 'Yasin Bhatkal' and the Bodh Gaya Blasts of 2013. Clashes with the high and the mighty have been a part of Vaibhav's career right from the early days and he is remembered and known for his tough action against deviant politicians found on the wrong side of law. Action against deviant politicians without any fear or favour was most visible especially when he served as the SSP of Patna in 2015.

He is also known for having earned the trust of the common people at large in every place that he has served and had always remained available round the clock for public grievances as the SP of the districts. As the DIG of Bhagalpur and Munger Ranges, he regularly conducted Janata Darbars and Police-Public Meetings for the resolution of public grievances.

The public of Bagaha having wide regard for his actions astonishingly dedicated and named a crossroad after him in village Samarkola, once infamous for crime, in his name years later in September, 2017, to recognise his contribution towards establishing peace in the district. Apart from his professional work, Vaibhav is an avid traveller and has visited more than 200 heritage sites and has been blogging on the neglected aspects of history at his famous blog titled as 'Silent Pages'. Widely followed on social media, he has also shared experiences from field policing at his blog titled 'Cop in Bihar' and regularly addresses youth in schools and colleges inspiring them to contribute positively towards society for a better future."

In March, 2021, Vaibhav launched "Let's Inspire Bihar", which is a voluntary social, cultural and educational initiative that seeks to promote and work upon the themes of Education, Egalitarianism and Entrepreneurship in order to contribute towards the establishment of a better future for Bihar. It aims to connect such committed individuals, who have on a voluntary basis opted to contribute to- wards future building on any of the core themes. The inspiration emanating from Bihar's magnificent heritage, which since the most ancient times had made its mark felt in the then contemporary world, is the main driving force behind the initiative. As one proudly recalls the past of Bihar, as a land of knowledge, as a land of military might with egalitarian political traditions and as a land of entrepreneurship, the initiative seeks to encourage the present generation to ponder over the reasons which had once brought such glory and also to brainstorm upon the reasons responsible for the decline with time in the process of natural evolution of the land, which once led the entire nation, that had its boundaries more widespread than the present day.

The initiative thus promotes the need to learn from the broadminded and foresighted vision of such illustrious ancestors, who only due to such vision and energy with synergy, could achieve so much at a time when available resources and infrastructure like roads, means of transport and communication were dismal and technology was still not as developed as the present day. It is with such understanding that the zeal to contribute towards future building would emerge from within, since it is important that the cumulative energy should be channelised in proper direction for de- sired results. The initiative is based upon sharing the under- standing and the inspiration and in motivating each other further in the wake of difficult times to prepare with faith, grit and determination for the future.
